

Year 4 Autumn 1

Home Learning

Over the next eight weeks, complete one piece of home learning and submit either on Google Classroom or bring into school on a Friday. It is up to you which piece you complete and when. There are 6 pieces of home learning to do — Have fun!

MATHS	Make your own times table prompt with 3x and 4x. This could be a chatterbox to play with others with different questions. It could be a petal diagram or your own colourful and well-decorated multiplication grid.	Design a map of a Viking on a raid. They are trying to find an Anglo-Saxon village. Write a set of compass directions to get to the centre to find the village. Don't forget to include hidden traps given by the Anglo-Saxons.	Date Completed: Date Completed:
ENGLISH	Use the Spelling Bee word list. Write out each word 2 times, check your spellings carefully. Choose the 10 words you find most interesting and write different types of sentences using them.	Write a diary entry as an Anglo-Saxon or Viking. It could be a day in the life of an Anglo-Saxon living in a village or it could be a Viking on a longship to a raid. Try to remember adjectives for how you are feeling.	Date Completed: Date Completed:
CREATIVE	Create a 3-D model or a set of sketches (2-3) from images of a typical Anglo-Saxon village. Find out if there are any village sites still active.	Create a set of Anglo-Saxon and Viking top trump cards—topic of your choice, it could be Viking gods, Anglo-Saxon and Viking kings, dragons. Alternatively, you can design your own Viking shield or longship similar to the ones in class.	Date Completed: Date Completed:

Submit finished home learning to Google Classroom or bring it into school!
